

Planetary gear

The portable planetary gears are designed to be used with long stem valves. Planetary gear converts the input torque, meaning that the user is able to operate the valve with less torque.

Product number: 287191
Body: Steel
DN-size: 200-400
Socket: HEX-50
Max. input (Nm): 490 Nm
Max. output (Nm): 7050 Nm
Gear reduction ratio: 18:1
